PROFESSIONAL SUMMARY

Front-End Web Developer and IT student focused on responsive, user-friendly web applications using Angular 18, React.js, and Vue.js. Strong foundation in full-stack development, maintainable code, and UI/UX prototyping, complemented by a completed IT Support internship and practical troubleshooting, communication, and collaboration skills.

TECHNICAL SKILLS

- **Frontend:** HTML5, CSS3, JavaScript (ES6+), TypeScript, Angular 18, React.js, Vue.js, Tailwind CSS, Bootstrap
- **Backend:** Node.js, Express.js, PHP, MongoDB, MySQL
- **Tools:** Git, GitHub, Figma, VS Code, Canva, WordPress, AWS

EXPERIENCE

IT Support Intern | June 2026 – September 2026

Clark Outsourcing – The Lead Tree Int. Corp | Angeles, Pampanga

- Provided on-site and remote technical support to employees, troubleshooting hardware, software, peripheral, and Windows issues.
- Prepared workstations and configured devices for new employees, including onboarding setup and ID card activation.
- Reformatted computers, installed applications, and organized workstation equipment and cabling.
- Checked LAN cable connections and performed basic network troubleshooting.
- Resolved Microsoft Office performance issues and assisted employees with device access and communication platform login credentials.
- Used internal ticketing systems and company portals to record and manage IT support requests.

PROJECTS

AC-CORE – Municipal Hazard & Infrastructure Mapping Portal | *Frontend Developer*

Tech Stack: Angular 18, TypeScript, MongoDB, Leaflet.js, Tailwind CSS, Spartan UI, Node.js

- Developed a municipal infrastructure dashboard with Leaflet.js mapping, citizen GPS detection, weather API integration, and multi-page routing.

Flashify – Full-Stack EdTech Study Platform | *Full-Stack Developer*

Tech Stack: React.js, Express.js, Node.js, MongoDB, JWT, Tailwind CSS

- Built a responsive MERN study platform with quiz CRUD, interactive flashcards, JWT authentication, and a dashboard for quiz history and completion metrics.

Thryve – Health & Fitness Tracking Platform | *Frontend Developer*

Tech Stack: Vue.js, MongoDB, Node.js, Express.js, PrimeVue, Chart.js, JWT, Bcrypt

- Developed a fitness tracking interface with workout, meal, water, sleep, and BMI logs, plus progress charts

EDUCATION

Holy Angel University **2023 – Expected Graduation: 2027**

Bachelor of Science in Information Technology, Major in Web Development

- **Academic Honors:** Dean's Lister, A.Y. 2024-2026

CERTIFICATIONS

- AWS Cloud Foundations (AWS Academy),
- freeCodeCamp (Responsive Web Design, JavaScript Algorithms, Back End Development),
- Simplilearn (Introduction to Graphic Design: Basics of UI/UX, Website UI/UX Designing using ChatGPT),
- Coursera (Work with Components in Figma).
