## PROFESSIONAL SUMMARY

Passionate Front-End Web Developer and IT student dedicated to merging design and code to create responsive, user-friendly, and visually refined web applications. Driven by a commitment to clean architecture, maintainable code, and thoughtful UI decisions that ensure digital experiences feel intuitive and polished. Highly proficient in modern JavaScript frameworks—including Angular 18, React.js, and Vue.js—with a strong foundation in full-stack architectures and UI/UX prototyping. Eager to bring a collaborative approach and a growth-oriented mindset to a Front-End Engineering Internship.

## TECHNICAL SKILLS

- **Frontend:** HTML5, CSS3, JavaScript (ES6+), TypeScript, Angular 18, React.js, Vue.js, Tailwind CSS, Bootstrap
- **Backend:** Node.js, Express.js, PHP, MongoDB, MySQL
- **Tools:** Git, GitHub, Figma, VS Code, Canva, WordPress, AWS

## PROJECTS

### AC-CORE – Municipal Hazard & Infrastructure Mapping Portal | *Frontend Developer*

*Tech Stack: Angular 18, TypeScript, MongoDB, Leaflet.js, Tailwind CSS, Spartan UI, Node.js*

- Engineered a proactive digital command dashboard for the Angeles City local government, designed to handle data-heavy municipal infrastructure modules efficiently without client-side lag.
- Translated complex geographic data into an intuitive user experience by integrating Leaflet.js for a geospatial live map with automated citizen GPS detection.
- Implemented real-time weather syncing APIs and structured a polished, multi-page layout utilizing structured routing systems.

### Flashify – Full-Stack EdTech Study Platform | *Full-Stack Developer*

*Tech Stack: React.js, Express.js, Node.js, MongoDB, JWT, Tailwind CSS*

- Built a highly responsive MERN-architecture platform featuring dynamic CRUD functionalities for custom quizzes and interactive flashcard study modes.
- Secured user data and session persistence by implementing JSON Web Tokens (JWT) authentication and state-managed user interfaces.
- Designed a clean, minimalist performance analytics dashboard to help students track quiz history and monitor completion metrics seamlessly.

### The Coffee Lab & Lounge – E-Commerce Specialty Platform | *Full-Stack Developer*

*Tech Stack: React.js, Tailwind CSS, Framer Motion, Lucide React, React Router*

- Developed a modern e-commerce web application featuring a dynamic digital menu, intuitive product filtering, and an integrated shopping cart system.
- Leveraged Tailwind CSS for rapid, utility-first UI styling to establish a polished, cohesive aesthetic across all device screens.
- Enhanced the overall user experience by implementing smooth UI animations and fluid micro-interactions via Framer Motion.

## EDUCATION

**Holy Angel University** **2023 – Expected Graduation: 2027**

Bachelor of Science in Information Technology, Major in Web Development

- **Academic Honors:** Dean's Lister, A.Y. 2024-2026

## CERTIFICATIONS

- AWS Cloud Foundations (AWS Academy),
- freeCodeCamp (Responsive Web Design, JavaScript Algorithms, Back End Development),
- Simplilearn (Introduction to Graphic Design: Basics of UI/UX, Website UI/UX Designing using ChatGPT),
- Coursera (Work with Components in Figma).
